

parla.common.array.Numpy  
Array.copy\_into

parla.common.array.CupyArray.copy\_into

parla.common.array.CupyArray.copy\_from

```
graph LR; A["parla.common.array.NumpyArray.copy_into"] --> C["parla.common.array.CupyArray.copy_from"]; B["parla.common.array.CupyArray.copy_into"] --> C;
```

The diagram illustrates a mapping or inheritance relationship. On the left, two rectangular boxes represent source methods: 'parla.common.array.NumpyArray.copy\_into' (top) and 'parla.common.array.CupyArray.copy\_into' (bottom). On the right, a single rectangular box represents the target method: 'parla.common.array.CupyArray.copy\_from'. Two blue arrows originate from the right side of the source boxes and point towards the left side of the target box, indicating that both source methods are mapped to or implemented by the target method.
