

parla.cython.device.CyDevice

```
graph BT; CyCPUDevice[parla.cython.device.CyCPUDevice] --> CyDevice[parla.cython.device.CyDevice]; CyCUDADevice[parla.cython.device.CyCUDADevice] --> CyDevice;
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'parla.cython.device.CyDevice'. Below it are two boxes: 'parla.cython.device.CyCPUDevice' on the left and 'parla.cython.device.CyCUDADevice' on the right. Blue arrows point from each of the bottom boxes up to the top box, indicating that both CyCPUDevice and CyCUDADevice inherit from CyDevice.
